## ABOUT ME

## INTERNSHIPS

### ➡ WEB DEVELOPMENT

26th Dec 2023-6th Jan 2024| kevel guru,Madurai

I worked on developing a web applications using HTML, CSS. I focused on making the web application easy to use and responsive.

### ➡ FULL STACK DEVELOPMENT

3rd Jun 2024-22nd jun 2024,Reccsar PVT.L.T.D,Madurai

During my internship,I learned frontend(Html,Css)and backend (nodejs)to create the web applications.This internship helped me improve my skills and learn how to create user-friendly web applications

## PROJECTS

### WOMEN SAFETY WEB |jan 2025

- ➡ Developing woman safety app using web development involves combining several technologies to ensure safety, security, and easy access for the users.
- ➡ The woman safety app provides real-time location tracking, emergency alerts, and live audio/video recording to ensure safety.

### SMART BIN WITH AUTO LID & ALERTS |OCT 2024

- ➡ A Smart Bin IoT project uses sensors to monitor waste levels in real-time and sends alerts to optimize waste collection schedules. This helps reduce operational costs and improve urban cleanliness.
- ➡ The purpose of a Smart Bin IoT project is to streamline waste management by providing real-time data on waste levels, enabling efficient collection and reducing costs. It helps create cleaner, more sustainable cities.

## PROJECTS

### LEGAL DOCUMENT SYSTEM:LLM |jan 2025

- ➡ Developed and implemented a Legal Document Question Answering System, leveraging NLP techniques to efficiently extract relevant information from legal texts. Enhanced system accuracy and response time, improving legal research workflows.
- ➡ The purpose of the project is to build a Q&A system that answers legal questions based on case reports ,contracts and other legal documents(PDF,Word,PPT,etc.).

### QUIZ APP WEB DEVELOPMENT |MAY 2024

- ➡ Developed dynamic Quiz App using web development technologies (HTML, CSS, JavaScript), enabling interactive and engaging user experiences. Integrated features such as real-time score tracking and question randomization for enhanced functionality.
- ➡ The quiz app was designed to provide an interactive and engaging learning experience, enhancing users' knowledge retention. It serves as an efficient tool for self-assessment and knowledge testing in various subjects.
